

Talent Trophy

Calling all green-fingered members!

Does your WI care for or look after a garden area? Perhaps your WI may be thinking of having one? We would be fascinated to see your current creation, or the progress your WI gardening group members have made in starting a project.

This competition is for any WIs who are interested in gardening and who have a garden project or just starting one.

Judges will be drawn from Heath House Farm Garden Centre of Caverswall. The things to think about are: colour contrasts of the flowers/stalks and leaves, texture of leaves and stalks between each plant, structure of the composition of the planting and how the plants work together to make their picture.

To enter, please submit between three and five photographs of your entry with an explanation to include the context of the planting and any story behind it. Photographs from last season will be accepted.

Please complete our [entry form](#) and return it to Federation Office no later than Thursday 26th June either by email to admin@sfwi.org or by post. Entries will be judged at the beginning of July and the winner announced in the news bulletin and on social media.

Cost per entry: £4.00
